

AP Physics Syllabus

Mr. Swanson

Welcome to AP Physics. The class you are taking combines science and math. This means you are required to bring a calculator to class every day. The calculator you bring must be scientific (at least have a cosine and sine buttons), it doesn't have to be a graphing calculator. Be prepared every day. This means the following:

- come to school with your homework completed
- study the material from the previous day
- bring calculator, pencils and paper to school
- bring a positive attitude

Grading

Grades will be weighted as following:

Homework	10%
Tests/quizzes	60%
Labs	20%
Projects/Reports	10%

Class Rules

- "smart devices" such as iPhones, iPads and Droids are not acceptable calculators for tests and quizzes
- Respect yourself and others in the class
- Clean up after yourself (if your desk is dirty or written on when you come into class, then let me know immediately)
- Class ends when the bell rings. Please do not pack up early before this time.
- No listening to music in class
- LATE WORK is only excepted when you were absent on the date it was due and with a verified absence.
- If you do not understand a concept or problem, PLEASE come see me after school or during appropriate times in class for help. Don't fall behind.
